### **DETAILED ACTION**

1. This Office Action is in response to the amendment and remark filed 09/30/04. Claims 1-17 were cancelled; claims 18-30 are pending for examination. A drawing filed to overcome the drawing objection; the objection is withdrawn. Claim 18 was amended to overcome the *Claim Rejections - 35 USC § 112* the rejection is withdrawn. The amendment filed is insufficient to overcome the *Claim Rejections - 35 USC § 102 and 103*. The rejections are maintained and cited as stated below.

2. The text of those sections of Title 35, U.S. Code 102 and 103 not included in this action can be found in a prior Office action.

3. Claims 18-20, 22-25 and 27-30 are rejected under 35 U.S.C. 102(e) as being anticipated by Schultz et al. (U.S. 6,453,339).

4. Claim 21 is rejected under 35 U.S.C. § 103(a) as being unpatentable over Schultz et al. (U.S. 6,453,339).

5. Claim 26 is rejected under 35 U.S.C. § 103(a) as being unpatentable over Schultz et al. (U.S. 6,453,339), as applied to claim 18, and in view of Ranalli et al. (U.S. 6,539,077).

6. Schultz and Ranalli were applied for claims' rejection, cited in the previous Office Action, which are applicable, hereby incorporated by references.

### ***Response to Arguments***

7. Applicant's arguments filed 09/30/04 have been fully considered but they are not persuasive. In the remark applicant argued in substance that:

a. The prior art does not teach automated provisioning system;

Art Unit: 2143

- b. The prior art does not address issues of services running on components of the distribution system.

In response to applicant's arguments in point a., the recitation automated provisioning system has not been given patentable weight because the recitation occurs in the preamble. A preamble is generally not accorded any patentable weight where it merely recites the purpose of a process or the intended use of a structure, and where the body of the claim does not depend on the preamble for completeness but, instead, the process steps or structural limitations are able to stand alone. See *In re Hirao*, 535 F.2d 67, 190 USPQ 15 (CCPA 1976) and *Kropa v. Robie*, 187 F.2d 150, 152, 88 USPQ 478, 481 (CCPA 1951).

In response to the applicant's arguments in point b., the argument does not commensurate with the claim language. Language of the claim does not require addressing issues of services running on components of the distribution system.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2143

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
